Thursday, December 14, 2017

Featuring Key Note Speaker: Dr. Ross Greene

Ross W. Greene, Ph.D. is the originator of the innovative, research-based model of intervention now known as **Collaborative & Proactive Solutions** (CPS) as described in his influential books *The Explosive Child*, *Lost at School*, *Lost & Found*, and *Raising Human Beings*. Dr. Greene served on the faculty at Harvard Medical School for over 20 years, and is now on the faculty of the Department of Psychology at Virginia Tech and on the Faculty of Science at University of Technology Sydney in Australia. He is also the Founding Director of the non-profit *Lives in the Balance* (www.livesinthebalance.org), which aims to disseminate the CPS model through no-cost web-based programming; advocate on behalf of behaviorally challenging kids and their parents, teachers, and other caregivers; takes a strong stand against the use of corporal punishment at home and school, the use of restraint and seclusion in schools and restrictive therapeutic facilities, and the use of detention, suspension, and expulsion in schools, preschools, and daycare settings; and encourages the use of non-punitive, non-adversarial interventions. His research has been funded by the Stanley Research Institute, the National Institutes of Mental Health, the U.S. Department of Education, and the Maine Juvenile Justice Advisory Group. He lectures and consults extensively to families, general and special education schools, inpatient psychiatry units, and residential and juvenile detention facilities throughout the world.
